

2022 DYB State T-Ball Tournament Skills Competition

*Golden Arm (2 players from each team, Jaycees)

Each player will stand at home plate and throw (3) balls to a target in center field. The individual player with the closest ball to the target will be the champion.

*Around the Diamond (5 players from each team, Jaycees)

Similar to around the horn-but a little less complicated, a player will stand at Pitcher, Catcher, 1B, 2B & 3B. Time will begin when the catcher receives the ball from the pitcher. The catcher will throw to 1B who will then throw to 2B who will then throw to 3B who will then throw back to the catcher at home. Time will stop once the catcher receives the ball from 3B. If the ball hits the ground, the next base must field it and touch their bag before making their throw. The team of 5 with the fastest time will be the champions.

*Speed Denom (3 players from each team, Rotary)

In relay fashion, the team of 3 will speed around the bases, making sure to touch each base. The next runner will take off when he/she touches the hand of the runner returning to home. The team of 3 with the fastest time will be the champions.

*Long Ball (2 players from each team, Rotary)

Like a home run derby, each player will get 3 hits off of the tee. The individual player with the longest ball (at the point where it first hits the ground) will be the champion.
